Read this first — how every set works

This is the engine of the whole plan. Understand these six ideas and you can run the program for months without thinking. Every exercise below then gives you the **exact set-by-set breakdown**.

1 · RIR (Reps In Reserve)

RIR 2 = stop when you could still do 2 more clean reps. It's how hard each set is. Compounds: RIR 1–3. Isolations: RIR 0–1 (closer to failure is safe on machines).

2 · Warm-up sets ≠ working sets

Before the first heavy lift of a muscle, do **2–3 ramp-up sets** (light → medium) to prime the joint. These are NOT counted in the "4 sets" — those are your hard **working** sets.

3 · Double progression

Stay at the same weight until you hit the **top** of the rep range on **every** working set. Then add the smallest jump and drop back to the bottom of the range. Repeat forever.

4 · Tempo

Lower under control (~**2 seconds**), no bouncing, then drive up with intent. The lowering phase is where most growth happens — never let the weight drop.

5 · Rest

Big compounds: **2–3 min** (full recovery = more reps = more growth). Isolation / machines: **60–90 s**. Don't rush the heavy lifts to save time.

6 · Deload (Week 6)

One easy week built in: **drop 1 set** per exercise, use **~70%** of your normal weight, keep everything at RIR 3+. You'll come back stronger — don't skip it.

★ **Your picks** (incline bench, goblet squat, assisted pull-up) are tagged and placed early in the session while you're freshest.

The 5 Training Days

DAY 1

Upper • Push

Chest • Shoulders • Triceps

🕒 55–65 min

5 exercises

~16 working sets

🔥 **Warm-up:** 5 min easy cardio, then arm circles + band pull-aparts. Your warm-up **ramp sets** happen on the Incline Bench below.

Incline Bench Press

Incline Bench Press **YOUR PICK**

4 working sets

6–8 reps

RIR 2

Rest 2–3 min

SET-BY-SET

Warm-up 2–3 ramp-up sets (e.g. ~50% × 8, ~70% × 5, ~85% × 3). Build to your working weight — these don't count as working sets.

Set 1 Your hardest, heaviest working set — aim for the top: **8 reps** at **RIR 2** (leave 2 in the tank).

Set 2 Same weight. Match reps if you can (**6–8**), keeping ~RIR 2.

Set 3 Same weight. Match reps if you can (**6–8**), keeping ~RIR 2.

Set 4 Final set — push closest to failure (~RIR 1). Reps may dip toward **6**; that fatigue is normal and fine.

Form cue

45° bench, shoulder blades pinned back & down, bar touches upper chest, elbows ~45° (not flared).

Common mistake

Bouncing the bar off the chest or flaring elbows to 90°.

When to add weight (+2.5 kg)

Tempo

All 4 sets hit 8 reps at RIR 2
→ add 2.5 kg next session.

~2 s down, controlled, brief
pause, drive up with intent.

Technogym Chest Press

Technogym Chest Press

3 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Set the seat so the handles line up with the middle of your chest. Press to a near-lockout, full stretch back.

Common mistake

Seat too high (turns it into a shoulder press) or cutting the stretch short.

When to add weight (+1 plate / pin)

12 reps on all sets at RIR 1 → move up one pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Technogym Shoulder Press

Technogym Shoulder Press

3 working sets

10–12 reps

RIR 1–2

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1–2** (leave 1–2 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1–2.

Set 3 Final set — push closest to failure (~RIR 1). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Press up and slightly inward.
Stop just short of full lockout
to keep tension on the delts.

Common mistake

Arching the lower back to
heave the weight up.

When to add weight (+1 pin)

Top of range on every set →
add a pin.

Tempo

~2 s down, controlled, brief
pause, drive up with intent.

Cable Lateral Raise

Cable Lateral Raise

3 working sets

12–15 reps

RIR **0–1**

Rest **60–75 s**

SET-BY-SET

Set 1

Your hardest, heaviest working set — aim for the
top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2

Same weight. Match reps if you can (**12–15**),
keeping ~RIR 0–1.

Set 3

Final set — push closest to failure (~RIR 0). Reps
may dip toward **12**; that fatigue is normal and fine.

Form cue

Lead with the elbow, raise to
shoulder height, slow 2–3 s
lower. Cable behind you
keeps constant tension.

Common mistake

Shrugging the traps or
swinging the torso for
momentum.

When to add weight (small)

15 clean reps all sets → tiny
weight bump.

Tempo

~2 s down, controlled, brief
pause, drive up with intent.

Triceps Pushdown

Triceps Pushdown

3 working sets

12–15 reps

RIR 0–1

Rest 60–75 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2 Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Pin the elbows to your sides, full extension, squeeze the triceps 1 s at the bottom.

Common mistake

Letting the elbows drift forward (turns it into a chest/shoulder push).

When to add weight (+1 pin)

15 reps all sets → up one pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

DAY 2

Lower • Quads

Quads • Hamstrings • Calves

🕒 55–65 min

5 exercises

~18 working sets

🔥 **Warm-up:** 5 min bike or incline walk, then bodyweight squats + leg swings. Ramp sets happen on the Goblet Squat below.

Goblet Squat

Goblet Squat YOUR PICK

4 working sets

8–10 reps

RIR 2

Rest 2 min

SET-BY-SET

Warm-up 2–3 ramp-up sets (e.g. ~50% × 8, ~70% × 5, ~85% × 3). Build to your working weight — these don't count as working sets.

Set 1 Your hardest, heaviest working set — aim for the top: **10 reps** at **RIR 2** (leave 2 in the tank).

Set 2 Same weight. Match reps if you can (**8–10**), keeping ~RIR 2.

Set 3 Same weight. Match reps if you can (**8–10**), keeping ~RIR 2.

Set 4 Final set — push closest to failure (~RIR 1). Reps may dip toward **8**; that fatigue is normal and fine.

Form cue

Hold the bell against your chest, sit straight down between your hips, knees track over the toes, chest up.

Common mistake

Heels lifting or knees caving inward.

When to add weight (+2 kg bell)

10 reps on all 4 sets → grab the next bell up.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Technogym Leg Press

Technogym Leg Press

3 working sets

10–12 reps

RIR 1

Rest 2 min

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Feet mid-platform, shoulder-width. Lower until knees reach ~90°, drive through the whole foot. Don't lock out hard.

Common mistake

Letting the lower back round / hips curl up at the bottom (go less deep).

When to add weight (+1 plate)

12 reps all sets at RIR 1 → add a plate.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Leg Extension

Leg Extension

3 working sets

12–15 reps

RIR 0–1

Rest 75 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2 Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Common mistake

Pause and squeeze hard at the top for 1 s, lower slowly. Great for the quad 'teardrop'.

Using momentum / swinging the torso back.

When to add weight (+1 pin)

15 reps all sets → up one pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Seated Leg Curl

Seated Leg Curl

4 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1

Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2

Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3

Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 4

Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Curl fully, control the way back, keep hips pinned to the seat. Seated curls hit hamstrings in a great stretch.

Common mistake

Hips popping up or only doing half reps.

When to add weight (+1 pin)

12 reps on all 4 sets → add a pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Standing Calf Raise

Standing Calf Raise

4 working sets

12–15 reps

RIR 0–1

Rest 60 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2 Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 3 Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 4 Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Full stretch at the bottom (heel drops below the step), big squeeze at the top, 1 s pause each end. No bouncing.

Common mistake

Short bouncy reps — calves need full range.

When to add weight (small)

15 controlled reps all sets → add weight.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

DAY 3

Upper • Pull

Back • Rear Delts • Biceps

🕒 55–65 min

5 exercises

~17 working sets

🔥 **Warm-up:** 5 min cardio, then band pull-aparts + scapular hangs. Ramp your first 1–2 pulldown/pull-up sets lighter.

Assisted Pull-Up

Assisted Pull-Up

YOUR PICK

4 working sets

8–10 reps

RIR 1–2

Rest 2 min

SET-BY-SET

Warm-up 2–3 ramp-up sets (e.g. ~50% × 8, ~70% × 5, ~85% × 3). Build to your working weight — these don't count as working sets.

Set 1 Your hardest, heaviest working set — aim for the top: **10 reps** at **RIR 1–2** (leave 1–2 in the tank).

Set 2 Same weight. Match reps if you can (**8–10**), keeping ~RIR 1–2.

Set 3 Same weight. Match reps if you can (**8–10**), keeping ~RIR 1–2.

Set 4 Final set — push closest to failure (~RIR 1). Reps may dip toward **8**; that fatigue is normal and fine.

Form cue

Set assistance so you get 8–10 hard reps. Start from a dead hang, drive elbows down, chest to the bar, control the descent.

Common mistake

Kipping / using too much assistance and never reaching near-failure.

When to add weight (–1 assist plate)

This one progresses by getting LIGHTER — when you hit 10 reps on all sets, REDUCE the assistance weight. Goal: full bodyweight reps.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Lat Pulldown

Lat Pulldown

4 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 4 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Slightly wider than shoulders, drive the elbows down to your ribs, chest up, minimal lean-back. Feel the lats, not the arms.

Common mistake

Leaning way back and rowing — keep it a vertical pull.

When to add weight (+1 pin)

12 reps all sets → add a pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Technogym Seated Row

Technogym Seated Row

3 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Pull the handle to your lower ribs, squeeze the shoulder blades together, then control the stretch forward.

Common mistake

Heaving with the lower back or shrugging up.

When to add weight (+1 pin)

12 reps all sets → up one pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Reverse Pec Deck (Rear Delt)

Reverse Pec Deck (Rear Delt)

3 working sets

15–20 reps

RIR 0–1

Rest 60 s

SET-BY-SET

Set 1

Your hardest, heaviest working set — aim for the top: **20 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2

Same weight. Match reps if you can (**15–20**), keeping ~RIR 0–1.

Set 3

Final set — push closest to failure (~RIR 0). Reps may dip toward **15**; that fatigue is normal and fine.

Form cue

High-rep rear delts. Pull the arms wide and back in an arc, lead with the pinkies, squeeze. Light weight, feel it.

Common mistake

Using the whole upper back instead of isolating the rear delts.

When to add weight (small)

20 reps all sets → tiny bump.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Dumbbell Biceps Curl

Dumbbell Biceps Curl

3 working sets

10–12 reps

RIR 0–1

Rest 60–75 s

SET-BY-SET

Set 1

Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2

Same weight. Match reps if you can (**10–12**), keeping ~RIR 0–1.

Set 3

Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Elbows stay at your sides, curl with no swing, slight twist (supinate) at the top, full stretch at the bottom.

Common mistake

Swinging the dumbbells up with the back/shoulders.

When to add weight (+2 kg)

12 reps both arms all sets → next dumbbell up.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

DAY 4

Upper · Hypertrophy

Chest · Back · Delts · Arms

🕒 55–65 min

5 exercises

~17 working sets

🔥 **Warm-up:** 5 min cardio + band pull-aparts. This is a higher-rep 'pump' day — lighter loads, more reps, shorter rests.

Incline Bench Press (lighter)

Incline Bench Press (lighter)

YOUR PICK

3 working sets

10–12 reps

RIR 1

Rest 2 min

SET-BY-SET

Warm-up 2–3 ramp-up sets (e.g. ~50% × 8, ~70% × 5, ~85% × 3). Build to your working weight — these don't count as working sets.

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Same groove as Monday but lighter and higher-rep. Smooth, controlled reps, full chest stretch each rep.

Common mistake

Ego-loading — this is a volume day, keep it clean.

When to add weight (+2.5 kg)

12 reps all 3 sets → add 2.5 kg.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Chest-Supported Row

Chest-Supported Row

4 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3

Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 4

Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Chest flat on the pad so momentum can't help — this makes it pure back work.
Row to the hips, squeeze, control back.

Common mistake

Lifting the chest off the pad to cheat the weight up.

When to add weight (+2 kg / pin)

12 reps all 4 sets → add load.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Technogym Shoulder Press

Technogym Shoulder Press

3 working sets

12–15 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**12–15**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Higher reps today. Press up and slightly in, keep continuous tension, no hard lockout.

Common mistake

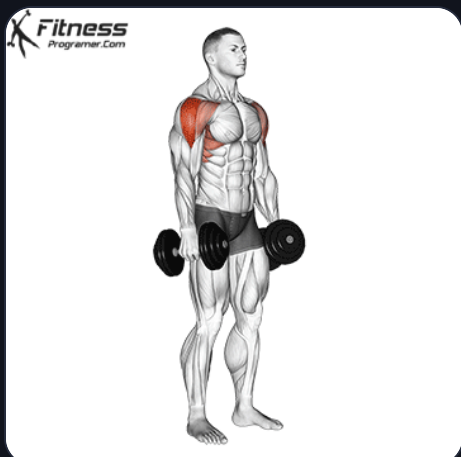

Bouncing out of the bottom.

When to add weight (+1 pin)

15 reps all sets → add a pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Cable Lateral Raise

Cable Lateral Raise

4 working sets

15–20 reps

RIR 0–1

Rest 45–60 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **20 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2 Same weight. Match reps if you can (**15–20**), keeping ~RIR 0–1.

Set 3 Same weight. Match reps if you can (**15–20**), keeping ~RIR 0–1.

Set 4

Final set — push closest to failure (~RIR 0). Reps may dip toward **15**; that fatigue is normal and fine.

Form cue

Burn-out volume for the side delts. Constant cable tension, controlled, chase the burn — it's supposed to be uncomfortable.

Common mistake

Going too heavy and turning it into a shrug/swing.

When to add weight (small)

20 reps all sets → tiny bump.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Cable Curl + Pushdown (superset)

Cable Curl + Pushdown (superset)

3 working sets

12–15 reps

RIR 0–1

Rest **75 s** after both

SET-BY-SET

Set 1

Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2

Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 3

Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Do a set of cable curls, then immediately a set of triceps pushdowns (that's one superset). Minimal rest between the two.

Common mistake

Resting between the curl and pushdown — keep them back-to-back.

When to add weight (+1 pin)

15 reps on both moves all rounds → up a pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

DAY 5

Lower · Hinge

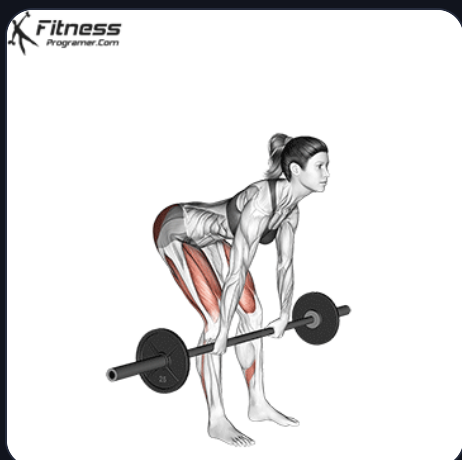

Hamstrings · Glutes · Calves

🕒 55–65 min

5 exercises

~17 working sets

🔥 **Warm-up:** 5 min bike, then hip hinges + glute bridges to switch the glutes on. Ramp the RDL with 1–2 light sets first.

Romanian Deadlift

Romanian Deadlift

4 working sets

8–10 reps

RIR 2

Rest 2–3 min

SET-BY-SET

Warm-up 2–3 ramp-up sets (e.g. ~50% × 8, ~70% × 5, ~85% × 3). Build to your working weight — these don't count as working sets.

Set 1 Your hardest, heaviest working set — aim for the top: **10 reps** at **RIR 2** (leave 2 in the tank).

Set 2 Same weight. Match reps if you can (**8–10**), keeping ~RIR 2.

Set 3 Same weight. Match reps if you can (**8–10**), keeping ~RIR 2.

Set 4 Final set — push closest to failure (~RIR 1). Reps may dip toward **8**; that fatigue is normal and fine.

Form cue

Soft knees, push the hips BACK (not down), bar stays close to the legs, lower until you feel a deep hamstring stretch (~mid-shin), then drive the hips forward.

Common mistake

Rounding the lower back or turning it into a squat. Keep the spine neutral.

When to add weight (+2.5 kg)

Tempo

~2 s down, controlled, brief pause, drive up with intent.

10 reps on all 4 sets at RIR 2
→ add 2.5 kg.

Goblet Squat

Goblet Squat YOUR PICK

3 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Higher-rep today. Stay tall and upright, controlled depth, bell tight to the chest.

Common mistake

Rushing reps and losing the upright torso.

When to add weight (+2 kg bell)

12 reps all 3 sets → next bell up.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Hip Thrust

Hip Thrust

3 working sets

10–12 reps

RIR 1

Rest 90 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **12 reps** at **RIR 1** (leave 1 in the tank).

Set 2 Same weight. Match reps if you can (**10–12**), keeping ~RIR 1.

Set 3 Final set — push closest to failure (~RIR 0). Reps may dip toward **10**; that fatigue is normal and fine.

Form cue

Upper back on the bench, chin tucked, drive through the heels, full hip extension, squeeze the glutes hard at the top for 1 s.

Common mistake

Over-arching the lower back instead of squeezing the glutes; not reaching full extension.

When to add weight (+2.5–5 kg)

12 reps all sets → add weight.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Lying Leg Curl

Lying Leg Curl

3 working sets

12–15 reps

RIR 0–1

Rest 75 s

SET-BY-SET

Set 1

Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2

Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 3

Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Lie flat, curl the heels to the glutes, don't let the hips pop up — keep it isolated to the hamstrings.

Common mistake

Hips lifting off the pad to cheat.

When to add weight (+1 pin)

15 reps all sets → add a pin.

Tempo

~2 s down, controlled, brief pause, drive up with intent.

Standing Calf Raise + Abs

Standing Calf Raise + Abs

4 working sets

12–15 reps

RIR 0–1

Rest 60 s

SET-BY-SET

Set 1 Your hardest, heaviest working set — aim for the top: **15 reps** at **RIR 0–1** (leave 0–1 in the tank).

Set 2 Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 3 Same weight. Match reps if you can (**12–15**), keeping ~RIR 0–1.

Set 4 Final set — push closest to failure (~RIR 0). Reps may dip toward **12**; that fatigue is normal and fine.

Form cue

Finish calves with full-range raises. Then 3 sets of weighted crunches / cable crunches for abs to close the session.

Common mistake

Short calf reps; rushing the abs.

When to add weight (small)

15 controlled calf reps all sets → add weight.

Tempo

~2 s down, controlled, brief pause, drive up with intent.
